RITUALS

**REGULAR FEEDING TIMES AND
CONDITIONS GIVE YOUR CAT A SAFE
AND HARMONIOUS ENVIRONMENT,
AND FEEDING RITUALS HELP TO
STRENGTHEN YOUR RELATIONSHIP
WITH YOUR PET.**

MORNING

You start your day with a pleasant breakfast and some fresh coffee or juice. Enjoy the time in the company of your cat and have a gourmet breakfast experience together. The delicious Brit Premium meat pouches in various flavors make the perfect breakfast for your feline companions.

MIDDAY

For cats, the day is divided into active time and rest time. When you're not home, your cat is sure to appreciate a bowl full of tasty and nutritious Brit Premium complete cat food. Choose the food that best matches your cat's specific needs.

EVENING

Evening cuddling and a treat in the form of a pouch is an ideal way to unwind. It also lets you check your cat's condition and enjoy some time together.

HOW TO FEED

Pour the food into a clean bowl especially reserved for your cat. Don't forget that when eating, cats can become distracted by the presence of other animals as well as by noise or negative emotions. Therefore, be sure your cat has a peaceful and quiet environment when eating.

HOW TO WATCH AND ASSESS YOUR CAT'S CONDITION

The feline silhouette is athletic and free of excessive stores of fat. The cat should be calm, not apathetic, and should react to your voice and presence. The coat should be shiny, thick, and full and not have any dandruff. The skin should be smooth and free of dandruff and not show any bald spots or irritation. To keep the coat of long-haired cats in optimal condition, we recommend regular brushing, which removes dead hairs and accelerates regeneration. The eyes should be bright, calm, and free of excessive tears.
